

Tik Maynard

June 14 and 15th

165 Beaver St, Schuylerville, NY. 12871

A much sought-after clinician, Maynard's clinics attract horse and rider combinations working at all levels and with varied goals. From active competitors to horsemanship-focused owners, Maynard is able to absorb as much from his clinics as the participants do. Maynard's encouraging demeanor and genuine interest in how the horses are thinking, feeling, and behaving helps to give riders the tools they need

to create more effective ways to teach their horses and build better partnerships. The focus of his teaching has shifted with new experiences and a greater understanding of how horses process information and are able to enjoy themselves.
